“ True to the Last.”

BOOTS

“THE CITY OF DUNDEE should be proud of the fact that it is the home of so world-famous a product as the SCOT BOOT.” Thus spoke a courteous visitor who had once tested the meritorious qualities of SCOT BOOTS from afar, and, in the testing, had found nothing lacking. Have YOU yet tested this super-production? The super-production which, by sheer force of its merit—the logical outcome of years of investigative experiments and progressive enterprise—is winning a reputation daily *away in the remotest parts of the civilised world.* The SCOT BOOT is a Nomad; it does indeed “Walk the Globe.”

MANUFACTURERS OF FRESH AND SALT WATER BOILER COMPOSITION.

ARTHUR DILLON & SONS' ANTI-CORRODE PREPARATION

FOR DESTROYING AND PREVENTING

Incrustations in Stationary, Marine, & Locomotive Steam Boilers.
AND CAN ONLY BE HAD FROM US DIRECT.

Testimonials from the leading Distillers, Brewers, Corporations, Printers, Flour Millers, &c., who have used the Composition regularly for over SIXTY YEARS, may be had on application.

DIRECTIONS FOR USING THE BOILER COMPOSITION.

Take one pound and a half to each horse power, for the first time using it, seven days before you intend to let the Boiler off, put in the cistern or through the feed pipe, or other convenient way; and then continue using $\frac{1}{2}$ pound to every horse power regularly every week.

OBSERVE.—It takes more of the Boiler Composition to remove the incrustation than what it takes to prevent it. By the use of the Boiler Composition from ten to fifteen per cent. may be saved in fuel.

Where the water contains grease it is thoroughly purified by the use of this Composition, and the grease entirely disappears.

Parties who are using A. D. & Ss.' Boiler Composition may have the water analysed free of charge and the Composition made to suit.

OURS IS THE ONLY POWERFUL SCALE REMOVER TO BE HAD.
Scale Remover is our Speciality, and has been our Study for Years.

A. DILLON & SONS' IMPROVED BELTING SYRUP.

*For the Perfect Preservation of all kinds of
Belting, Driving Ropes, Bands, Fire Hose, &c.*

**For the Prevention of
BREAKAGES, SLIPPING and FALLING-OFF of Belts
it has no equal.**

Is invaluable for Belts running in DAMP or DUSTY situations, and being very penetrative, is specially valuable for application to Belts which are subject to a HEATED or DRY temperature, keeping them pliant and supple, thereby considerably decreasing the liability of breakage.

Is absolutely free from any deleterious matter.

Is very moderate in price, and has great lasting power.

It preserves the nature and elasticity of all kinds of Belting.

It prevents slipping and falling-off of Belts, and increases their grip and power.

It renders Belting impervious to damp, &c., and is specially suitable for hot or cold climates.

It is the most economical and effective fluid in the market.

**By the use of this Fluid a great saving is effected in the
WEAR and TEAR, POWER and FUEL.**

Applied with a Brush to the Inner Surface of the Belt as required.

HIGH-PRESSURE PERFECTION GAUGE GLASSES,

PORTOBELLO, N.B.

WE take the opportunity of calling your special attention
to our "PERFECTION"

GAUGE GLASSES,

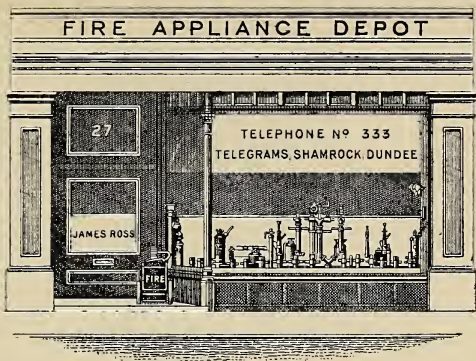

which we have recently placed on the market to supply the demand for a special Gauge Glass suitable for the high-pressure boilers now in use. As the name implies, they are renowned for their **durability** under the **most stringent conditions**.

During recent trials the average pressure attained was over 500 lbs. steam pressure to the square inch, and we can therefore specially recommend them for steam pressure of about 300 lbs.

For use in Steamboats, Locomotive Engines, Electric Power Stations, Collieries, Mills, and all places where High-Pressure Boilers are used, they are invaluable especially where the Boilers are exposed to the weather and sudden changes of atmospheric temperature.

WE RESPECTFULLY SOLICIT A TRIAL.

SCOTTISH EQUITABLE

LIFE ASSURANCE SOCIETY.

This Society has carried on business for 89 years, and its policies form an investment which may be relied on not to depreciate in value. There being no Shareholders the Members obtain assurance at Cost Price.

PROFITS and BONUSES.

In pre-War times the Society declared Bonuses as high as £1 10s per cent. per annum on the Sums Assured and previous Bonuses, a rate equivalent in some cases to £2, £3, or more per cent. on the original sum assured.

In 1918, owing to the War, no Bonus was declared, the funds being kept intact for the future benefit of Members. The soundness of this line of policy, in the estimation of new insurers, is borne out by the fact that in the immediately succeeding year the New Business of the Society was larger than any previous year of its history, and it has since greatly increased.

Intermediate Bonuses are payable as explained in the Prospectus.

EVERY MODERN FORM OF LIFE ASSURANCE MAY BE OBTAINED IN THIS SOCIETY.

DUNDEE DIRECTORY.

GENERAL NOTICE.

THE publication of the last Dundee Directory coincided with one of the great events of history—the signing of the Armistice in November 1918, which practically ended the European War, the Peace Treaty being signed on 28th June 1919, and Peace Day celebrated on 19th July. The men who were taken from the factories and workshops to form the huge armies have been demobilised, and for a time unemployment was rife. The cost of living steadily rose, workers of all grades demanded higher wages, and threats of strikes were heard on every hand. Dundee, like other places, has its unemployment and unrest, but every effort is being made to overcome the labour difficulty. The city has forged steadily ahead with its reconstruction schemes, and has the proud distinction of being a pioneer in grappling with the housing problem.

Certain areas of the city were mapped out as sites for model dwelling-houses—Logie, Hospital Park, Stirling Park, Taybank, Lochee; as well as sites in the east, north, and west districts, on which cottage dwellings are to be erected.

The houses at Logie have been completed, and were formally opened by Lord Provost Sir William Don, K.B.E., in May last. This was the first housing scheme in Scotland to be proceeded with by a local authority in partnership with the State. The site at Logie comprises twenty-one acres, purchased at the price of £4500. There are two hundred and fifty houses, two storeys in height, of the “flat” type. They are built in two sizes, one having a large living-room, one bedroom, a kitchen-scutlery, bathroom, larder, and pantry, with ample press accommodation; the other has two bedrooms. Each dwelling has a separate entrance, and all are lit by electricity. A central heating system heats them and supplies hot water. The smaller houses are let at an annual rental of £16 18/-, and the larger at £22 2/-, excluding rates. Hopeful expectations are entertained regarding the Veterans’ Association Housing Scheme at Barnhill, of which the foundation stone was laid on 24th April 1920 by the Rt. Hon. Robert Munro, Secretary for Scotland. Thirty cottages are now in course of erection.

The Den of Mains, purchased by the late Sir James K. Caird, Bart., and presented by him to the city, has been tastefully laid

out as a pleasure park, with an artificial lake, thus adding another beauty spot to the city. A further improvement carried out by the Corporation is the spiral carriage-way to the top of the Law. This, when finished, will allow vehicular traffic to reach the summit, and citizens who were formerly debarred by the rough climb will now be able to enjoy the splendid view from the top.

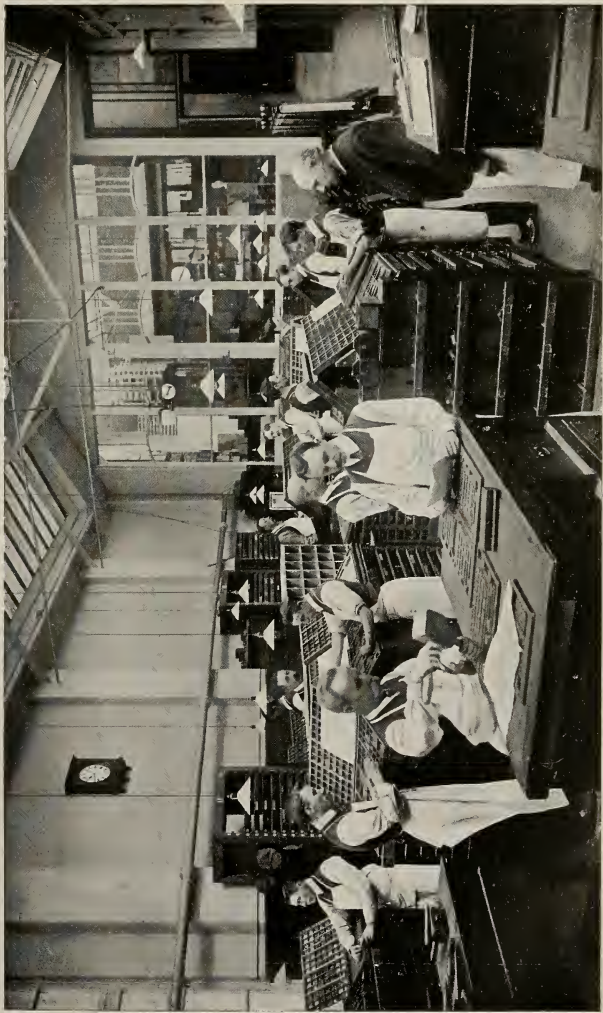

The Corporation, anticipating an industrial boom, purchased a part of the Linlathen estate in the vicinity of Forfar Road and Maryfield, extending to 265,063 acres, at a cost of £35,382. Inquiries have already been made for taking up sites, and twelve acres have been taken by Messrs Keiller, who are meantime utilising a part for the storage of pulp, and the remainder is to be laid out as a recreation park for their employees. A large pavilion is to be erected, and provision made for various summer and winter games. In February 1919 the City Engineer issued a Report on Town Planning, with illustrations showing the proposed Ring Road around Dundee, and the suggested Foot Bridge over the Tay, constructed on the piers of the old Bridge. Part of the Ring Road has been formed at the Mains.

The new City Hall is progressing rapidly, and, it is expected, will be completed next year. The shops on the ground floor facing the south are already occupied. To meet the increased cost of wages and material, Mrs Marryat, sister of the late Sir James K. Caird, has generously gifted £75,000; so the hall will be opened free from debt. It will be a boon to Dundee when this hall is opened, for the city is now well-nigh "hall-less." The Kinnaird Hall, so long used for concerts and political and other meetings, and practically the only hall in Dundee where a large audience could assemble, was sold for £21,300 to a cinema firm, and is now a picture house. And not only has the Kinnaird Hall been taken for the "pictures," but in October 1919 Her Majesty's Theatre closed its doors as the home of the legitimate drama, and opened as a cinema. Dundee is now without a theatre.

But if the doors of art in one sense are closed, the doors of art in another phase will be opened. The trustees of the late Provost J. G. Orchar, of Broughty Ferry, have purchased Beach House for the purpose of housing the valuable collection of pictures, books, and violins bequeathed by Provost Orchar to Broughty Ferry. The collection consists of many fine specimens of the work of William M'Taggart, R.S.A., and other prominent Scottish painters, and some magnificent violins by Stradivarius and other Italian makers. The Gallery will be open free to the public.

The Jewish community of Dundee, who had no permanent place of worship, opened with great ceremony last May a new Synagogue in Meadow Street.

The textile trade of the city has been good—in fact 1919 was described as a lucky year, although there was some unrest among the workers. A forty-eight hours working week has been established, the employees starting at 7.45 instead of six o'clock in the morning, and stopping at 5.30 P.M., with 12 noon to 1 P.M. for a mid-day meal, so the half-past five in the morning "bummer" is

now a thing of the past. Wages also have been materially increased. The school hours were rearranged to suit the altered hours of the workers.

The shipbuilding and engineering trades have had their fair share of liveliness during the year. Amongst the ships launched from the Caledon Shipbuilding Yard was the "Machaon," of 7800 tons, the largest vessel yet built on the east coast of Scotland. The many orders booked will keep the yards busily employed for a considerable time to come.

The present supply of electricity has become inadequate for the city, and various schemes have been put forward to augment it. Meantime tenders for the extension of the Carolina Port generating station have been accepted by the Electricity Committee of the Town Council. This will give employment to a large number of workers in the different trades.

Great alterations are also being carried out at the Gas Works. New vertical retorts and condensers are being installed. These, it is said, will cheapen the price of gas, and give a greater percentage of by-products.

Changes have taken place in the Tramways Department. Owing to health reasons, Mr Peter Fisher, who was so long Manager, has retired, and Mr Walter T. Young has been appointed in his place. Mr Fisher is still to act as consultant.

The first election of the new Education Authority took place in April 1919, and was conducted on the Proportional Representation system. A new office—that of Organiser of Education—was created under the Education Authority, and Mr Stewart A. Robertson was chosen to fill the post.

The Fire Brigade was kept busy during the year. In November last two disastrous fires occurred. A large building at the Harbour was destroyed, the damage being estimated at £25,000; and the Princess Cinema Theatre, Hawkhill, was burned, and damage to the extent of £6000 was done.

The city was honoured by the visits of two of the great War heroes—Earl Haig and Earl Beatty. On May 15th, 1919, Earl Haig received the freedom of the city, and on September 6th Earl Beatty was also admitted a Burgess.

Three Conferences were held in Dundee—the Tramway Officials' Conference on September 18th, 1919; the Scottish Library Association on June 10th; and the Municipal Engineers' Conference on June 17th, 1920. Each was officially received and entertained by the Town Council.

With the ending of the War the Dundee Fine Art Exhibition Committee decided to hold an exhibition of works of modern art, which formed in times before the War an event in the city. A splendid collection of pictures was hung in the Victoria Galleries, and opened to the public in February 1920. This proved again a great success, the sales amounting to over £5700. Not only did the Committee cater for the art-loving public, but they gave six delightful high-class concerts in connection with the Exhibition, which were greatly appreciated by the large audiences that filled the

Galleries. A musical event in the history of the city was the winning of the Gaelic Mod Shield by the Dundee Gaelic Choir.

The Commercial Library, which was opened in the Albert Hall in January 1919, has been a great success, as is proved by the number of readers frequenting it and the number of inquiries on all kinds of subjects answered over the counter. At the opening ceremony by Principal Sir Alfred Ewing, Edinburgh University, Principal Sir John Herkless announced that Mr George Bonar, Dundee, had given £25,000 to St Andrews University to found a Commercial Faculty to be conducted at University College, Dundee.

The health of the city has been normal. No serious outbreaks of epidemic disease have occurred. Death, however, has claimed many well-known citizens:—Mr John Earl Robertson, who was so long associated with Messrs James Spence & Co., drapers; Mr George C. Keiller, Hawkhill House; Mr George K. Smith, Ardmere; Mr Herman Luhrs, flax merchant; ex-Bailie John M. Nairn; Mr James Stevenson, of Stevenson Bros., dyers; ex-Bailie Craig, the veteran temperance reformer; Mr Robert Fergusson, solicitor; Mr David Duncan, solicitor, the father of the Dundee Bar; Mr George B. Simpson, solicitor; Mr J. B. Macdonald, produce merchant; Rev. Dr Cameron, Rosebank Church; Rev. R. S. Warren, formerly of St David's Church; two Original Secession ministers, Rev. James Patrick and Rev. Peter M'Vicar; Mr Walter Baxter, solicitor; Mr W. C. Honeyman, novelist and musician; Mr W. Briggs, asphalt manufacturer; Mr Alex. Gilroy, of Ballumbie; Mr Nimmo Christie, organist; Mr David Dewar, procurator-fiscal; Mr D. H. Littlejohn, solicitor; Mr R. E. M'Gavin, merchant; Sir John Herkless, Principal of St Andrews University; Mr John Miln, banker; Mr John Scrimgeour, solicitor; also Miss Nimmo, daughter of the late Dr Patrick Nimmo; Mrs Hunter, wife of ex-Lord Provost Hunter; and Miss Jessiman, of the Y.W.C.A.

The prosperity of the workers may be judged by the fact that the deposits in the Dundee Savings Bank for the year 1919 were unparalleled in the Bank's history. This is a good sign for the times, and, with the carrying out of the schemes which the Town Council and others have in view for extensions and new industries, the outlook for Dundee is very bright.

When several packets are tendered by one sender for delivery by the same messenger at different addresses, or to different persons at same address, the Express fee of 6d a mile will be charged for the full distance to be traversed by the messenger, and an additional fixed charge of 1d for each article above one.

If it be desired to secure compensation for damage to a packet (other than a parcel), it must bear the words "Fragile, with care."

Packets for registration must be marked in the bottom left-hand corner with the word "Registered," and, when the fee exceeds 2d, with the amount of the fee proper to the value up to which the sender desires to secure compensation, thus, "Registered 3d," and so on. The sender of an Inland postal packet may obtain an acknowledgment of its due delivery by paying, at the time of posting, a fee of 2d in addition to the postage and registration fee.

Inland postal packets containing coin, watches, or jewellery, if posted without registration, are subject to compulsory registration, and are charged on delivery with a fee of 4d, in addition to the ordinary postage. Letters containing uncrossed Postal Orders in which the name of the payee has not been inserted, uncrossed cheques or dividend warrants, bank notes, postage stamps, or any article (other than coin and jewellery) of a value exceeding 10s, will, when found open in the post, or when opened in the Returned Letter Office, be subject to registration, and be chargeable with a registration fee of 2d. POST OFFICE TELEGRAPHS.—INLAND TELEGRAMS.

The charge for telegrams throughout the United Kingdom is 9d for the first 12 words, and ½d for every additional word. Addresses are charged for.

Forms with embossed stamps can be obtained either singly or in books of 20, interleaved, and with a sheet of carbonic paper, price 15s 2d each book.

When the terminal office is a Head Post Office, the amount paid for transmission covers the cost of delivery within three miles or within the town postal delivery when that extends for more than three miles. But when it is not a Head Post Office, the message is delivered free within three miles only. The portage on messages for places beyond the limits of the free delivery will be at the rate of 3d a mile or part of a mile, the charge being reckoned from the limit of the free delivery.

Copies of a telegram directed to more than one person in the same free delivery are delivered at a charge of threepence per copy, in addition to the ordinary telegram charges for the number of words in the addresses and text. Telegrams may be repeated, if the sender desires it, at one-half the ordinary tariff.

Persons not wishing to send to a Telegraph Office may post a telegram in an envelope addressed "Telegram, Immediate" in a wall or pillar-box, or Sub-Post Office. Telegrams so posted are sent on by next collection to the Telegraph Office for transmission free of extra charge, provided that the proper amounts have been prepaid.

No combination of words is counted as one, with the exception of those which are ordinarily written as one, or coupled by hyphens, as "mother-in-law," "forty-seven." Certain exceptional names, such as O'Neil, MacDonald, De la Rue, are charged for as single words. So, too, are names with the prefix "St," as St Pancras; but double names of persons, like Smith-Payne, are counted as two words. Abbreviations of words, "can't," "won't," "don't," are counted as single words.

Figures are counted at the rate of five figures to a word. Fractions are counted according to the number of figures employed, one figure being added for the mark of division. In groups of figures a stop is counted as a figure. The symbols o/o, a/c, b/l, and c/o are each counted as one word. In ordinal numbers the affix st, nd, rd, or th is counted as two figures—thus "1st" counts as one word, "1432nd" as two words. When figures are preceded or followed by a letter (except in the case of ordinal numbers), the letter is counted as a word, but letters added to figures to denote the number of a house are counted as figures. Initial letters are each counted as one word, with the exception of the initials of the London Postal Districts, which are counted as one word for each group. Names of towns and villages in the United Kingdom are counted as one word each, irrespective of the number of words of which they are composed. When necessary to add name of town or county to the name of a place to distinguish from another of the same name, the name of town or county is not charged. When words are underlined, or in parenthesis or inverted commas, one extra word is charged. One word each is charged for signs of punctuation.

Anyone may register an abbreviated address on payment of a guinea a year.

The cost of a reply, not exceeding forty-eight words, may be prepaid, and a reply form will then be delivered to the addressee, who will be at liberty to use it for any inland message, at any time within twelve months.

FOREIGN TELEGRAMS.

In telegrams written in plain language (English or French) the length allowed for a word is 15 letters. Additional letters are charged for at the rate of 15 letters to the word.

Subject to the limit as to number of letters, ordinary compound words and

names of persons and places, &c., written without break or interruption, are counted as single words. If joined by a hyphen, or separated by an apostrophe, they are counted as so many separate words. Compound numbers written in words and without break are also counted as single words subject to the same limit as to the number of letters. The name of the office of destination in the address is charged for as one word whatever its length; and when the name of the country, state, province, or district has to be added the whole expression is charged for as one word. Every separate letter or figure is charged for as one word. Groups of letters in cypher and groups of figures are counted at the rate of five to a word. Bars of division, decimal points, and stops used in the formation of numbers are counted as figures. Letters added to figures to form ordinal numbers are counted as figures.

Telegrams in Code language must be written in one of the authorised codes. Telegrams in private code or in cypher language cannot be accepted meantime.

NIGHT TELEGRAPH LETTER SERVICE.

Night Telegraph Letters may be sent between any two towns in which the Head Telegraph Offices are open always for delivery by the first post the next morning—including Sundays if there is a Sunday delivery. The rate is 9d for 36 words or less, and ½d for every 3 words beyond 36.

Night Telegraph Letters must be in plain language. They should be written on telegram forms and the charges prepaid in postage stamps. They may be handed in at or telephoned to the Head Office of the town before midnight, or posted in time to reach it by midnight, prepaid at the above rate, in an envelope marked simply "Telegraph Letter." They may not bear multiple addresses; and registered telegraphic addresses will not be accepted.

RADIOTELEGRAMS.

Ship Service Messages.—Radiotelegrams relating to the safety or working of the ship to which they are addressed, and sent by the Owners or Agents of the ship (Ship Service Messages), are accepted at any Telegraph Office for transmission to ships equipped with wireless telegraph apparatus.

Private Radiotelegrams.—Radiotelegrams concerning the private affairs of individuals or firms are also accepted for transmission to merchant ships in all waters except the following:—Baltic, Black Sea, and Sea of Marmora.

Address.—The address of a radiotelegram should contain (1) the name of the addressee; (2) the name of the ship, prefixed "steamship" when there is a risk of the name of the ship being confused with the name of a Telegraph Office; and (3) the name of the coast station through which the sender wishes the radiotelegram to be sent. (The Post Office cannot give any assistance in the choice of the coast station.)

Radiotelegrams for Delivery by Post.—Radiotelegrams can also be sent to a ship in any waters, except those specified in the paragraph headed "Private Radiotelegrams," to be posted as letters at a port of call. A charge of 2½d is made for postage, in addition to the ordinary radiotelegraph charges.

Radiotelegrams from Ships.—In the case of a radiotelegram from a ship, the word "Radio" appears (as an indication of the manner in which the message has been transmitted) in the delivered copy in the space provided for the name of the office of origin, together with the name of the coast station through which the radiotelegram has been sent, and the name of the ship on which it originated.

INLAND REVENUE STAMPS, &c.

The following Inland Revenue Stamps:—Bill Stamps, Bankruptcy Stamps, Patent, Design, and Trade Mark Stamps and Forms, Dog and Gun Licenses, may be purchased at the Post Office.

AIR MAIL SERVICES.

London to Paris.—There are two air services to Paris, leaving Croydon at 9.30 a.m. and 4.30 p.m. daily, except Sundays. The 9.30 a.m. despatch benefits chiefly letters posted over night, whether in London or in the provinces, for Paris, which should reach the addressees in the early afternoon if prepaid for express delivery, and in the afternoon or evening if not so prepaid. The 4.30 p.m. despatch benefits chiefly letters from London for Paris and for places beyond Paris. Letters for express delivery may be delivered in Paris the same night, and others by first post next morning.

Unregistered letters, postcards, packets of printed papers and commercial papers and samples may be sent, but not parcels or insured correspondence.

Fees. (1) Ordinary foreign postage.

(2) An air mail fee of 2s per oz.

(3) An express fee of 6d per packet when express delivery is required.

These fees must be prepaid in postage stamps affixed to the packet. Unregistered packets should be posted in the ordinary way, enclosed in an outer cover addressed to "the Postmaster, Croydon." Both covers must be prominently marked in left-hand top corner "Air Mail," or, if express delivery is desired, "Air Mail Express." The postage must be affixed to inside cover.

London to Amsterdam.—There is one air service to and from Amsterdam daily, except Sundays; leaving the London Aerodrome at about 4 p.m. and the Amsterdam Aerodrome at about 3 p.m., and due at the respective terminal Post Offices at about 7.30 p.m. and 6.30 p.m. Express air mail packets for Amsterdam and Rotterdam should normally be delivered the same evening, and non-express air mail packets for these places and for the rest of Holland by first post on the following morning. As letters sent by the ordinary night mail from London are not delivered anywhere in Holland until the following afternoon or evening, the air mail will normally be quicker by the greater part of a business day, and by the use of the air mail in both directions it will be possible to obtain from Amsterdam a reply to a letter from London within about thirty hours.

Unregistered letters, postcards, packets of printed papers, and commercial papers and samples may be sent, but not parcels or insured packets.

Fees. (1) Ordinary foreign postage.

(2) An air mail fee of 3d per oz.

(3) An express fee of 6d per packet when express delivery is required.

These fees must be prepaid in postage stamps affixed to the packet. Unregistered packets should be posted in the ordinary way. The cover must be prominently marked in left-hand top corner "Air Mail," or, if express delivery is desired, "Air Mail Express."

POST OFFICE SAVINGS BANK.—The Post Office acts as a Bank for Savings throughout the United Kingdom. In every town and in almost every village small savings may be paid in at the Post Office. The money will be held in safety by the Government, will earn interest, and, when required, may be drawn out again through the local Post Office wherever the owner may be.

Home Safes can be obtained at all Post Office Savings Banks. The Safe is a small steel box in which coins may be placed for subsequent deposit in the Savings Bank; it is locked when issued, but every Savings Bank Office keeps a key which will open it when presented for the purpose of having the con-

tents placed to the credit of the holder. The charge for the Safe is 3s. Of this amount 1s is a registration fee and is not repayable, but the balance of 2s will be repaid if the Safe be given up in good condition.

Forms to which stamps may be affixed are supplied at Post Offices for the assistance of children and others unable to save more than a penny or two at a time.

Special facilities are provided for assisting managers of Penny Banks, and for the saving of pence by children attending elementary schools. Information on the subject will be furnished on application to the Controller of the Savings Bank.

Special facilities are also afforded to depositors in the Post Office Savings Bank for making investments in Government Stock, for purchasing Annuities, and for effecting Life Insurances.

TELEPHONE AND TELEGRAPH ADVISORY COMMITTEE.—From Chamber of Commerce, W. Norman Boase, J. Ernest Cox, Joseph Philip, William Rettie; from Town Council, Hospitalmaster Ramsay, J. M. Soutar, John Ogilvie, W. H. Blyth Martin; from Harbour Board, H. Giles Walker; from Faculty of Procurators, H. A. Pattullo; from Stock Exchange Association, Jas. B. Falconer; from Newspaper Proprietors, N. A. Pattullo, D. C. Thomson; Secretary, George R. Donald, 3 Bank street.

THE USE OF TELEPHONES FOR SENDING TELEGRAMS AND EXPRESS LETTERS.—Any subscriber to a Telephone Exchange may telephone messages to many Post Offices, so that these messages may be dealt with as Telegrams or Express Letters or Ordinary Letters; and Telegrams may be delivered by telephone instead of by messenger (if the subscriber has a registered telegraphic address). Telegrams may also be addressed to the telephonic addresses of Exchange subscribers for delivery by telephone. The address must comprise the subscriber's name, thus—"Jones, Midland 245, Birmingham," or "Jones, Hull 245."

An Express Letter telephoned to a Post Office is delivered for the usual Express Delivery fee if it does not contain more than 30 words, including the address. If it exceeds that number, each additional 30 words, or part thereof, is charged for as a separate Express Letter. Any subscriber to a Telephone Exchange may obtain the services of an express messenger by telephoning to the nearest Post Office.

GRAMOPHONES.

¶ Don't run away with the idea that the Gramophone is merely a toy—on the contrary it is a serious and valuable aid to the acquirement of an intimate knowledge of the great masterpieces of musical composition. How few are the opportunities of hearing an orchestral rendering of a Beethoven Symphony. The Gramophone owner can have a perfect rendering by the best of orchestras and the greatest of conductors at his own fireside, and instead of hearing Melba and Clara Butt on the very rare occasions that the provinces are favoured with their actual presence, can listen nightly to their divine voices.

STREET DIRECTORY.

See LIST OF STREETS, SQUARES, &c., at beginning of Directory.

NUMBERING OF STREETS.—In Dundee it has hitherto been the practice to number the Streets with the odd numbers on the *right* hand side of each street, and the even numbers on the *left*. In the Directory, therefore, the names have been arranged in the same way—the *odd* numbers first, 1, 3, 5, 7, &c., then the *even* numbers following in the reverse direction, as 8, 6, 4, 2. The Broughty Ferry Streets, however (with the exception of Monifieth road, and all streets in Barnhill), are so arranged that the order of the buildings (not in every case numbered) begins on the *left* hand side of the street, returning on the *right* hand side in the reverse direction. This should be kept in mind when consulting the Directory.

The List of Streets, Squares, &c., on page 19 (which has reference letters to denote the position of each street on the Plan of Dundee, and reference numbers and letters to indicate Registration Districts and Ward Boundaries) will be found serviceable in determining the situation of any required locality.

CRIGHTON'S

PATENT WRINGER PLATE.

The plate herewith has been designed to meet a much-felt want in the Wash-house, as the methods hitherto adopted for fixing the Wringer to the earthenware tubs have been invariably unsuccessful, and have caused much inconvenience to the users.

The Plate is made in one piece and is of Cast-Iron—Galvanised to prevent Corrosion—and although fixed between the tubs there is no risk of cleavage, as the double flange bearing upon the tubs counteracts this tendency. The ends of Plate are chequered on both sides to give wringer screws a secure hold, and any ordinary size of wringer can be fixed to same.

“They have Eyes

but see not”—is undoubtedly the reason why many people find so little beauty in the world. Their eyes take in the big things, but fail to see the smaller and finer things. The pity is they rarely realise how much they miss which others enjoy. Fortunately sight which is below normal can be wonderfully helped with modern glasses. Eye service, which is lastingly satisfactory, from

The Dundee Royal Infirmary.

THE ROYAL INFIRMARY was founded in 1782, and has gradually increased its provision for the sick and hurt by building and by undertaking the control of branch Institutions until now there are over 530 beds available for the treatment of patients. The number under treatment at the Infirmary during 1919-20 was—indoor, 5782; the number of persons who attended for advice or medicine at the outdoor departments was 17,118; while 12,267 visits were made by Nurses from the Maternity Hospital to patients at their own homes. At the Convalescent Home 1015 patients received the advantage of a rest after their illnesses, and at the Sidlaw Sanatorium the treatment of 151 children and 8 adults was continued with beneficial results.

The cost of maintenance of the Infirmary for last year was £40,184, considerably increased owing to the continued rise in the cost of everything connected with the working of the Institution, and the ordinary income £23,537; and there was a deficit in the accounts of the Convalescent Home of £2755 and of the Sidlaw Sanatorium of £2644.

The Directors desire to continue the appeal for endowing and naming beds and cots, the sum necessary to endow a bed or cot being £1050, to name one, £210. Subscribers are earnestly solicited to *increase* their Subscriptions, and to induce those of their friends who do not contribute to the Funds to become Subscribers. The names and addresses of any who are likely or willing to subscribe should be sent to the Treasurer,
